In conducting his own piano manufactory in Milwaukee, it has always been Mr. Gram's purpose to give the public an instrument of unquestioned merit at a moderate price. In this he has succeeded. He has embodied the best ideas of the standard makes of the world and over 38 years' experience handling the highest grades of pianos has given him this advantage. The...
City Directory

places the city on the map and is its only representative to the world beyond its own gates.

- ¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.
- ¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.
- ¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.
- ¶ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

A large, dark, starburst-shaped graphic with a jagged, sunburst-like border. Inside the starburst, the text is arranged in several lines, centered horizontally. The text is in a bold, sans-serif font, with some words in all caps and some in title case. The background of the starburst is a dark, textured grey.
